Thanks so much for requesting **Chapter 4: Divine Design**. This is actually the most popular chapter of my bestselling book by ***Own Your Amazing: Discover Your Power to Create an Amazing Life You Love***.

I have never given this content away for *free* before and I can't wait to hear your thoughts after you read and implement the life-changing lessons inside.

CHAPTER 4

Divine Design

"You are fearfully and wonderfully made."

Psalms 139:14

In the beginning, a Divine and Intelligent Being created and designed an amazing YOU. I believe creation is the explanation of how we all got here on this planet. I know other people think other theories, which is fine, but I believe that there is an Intelligent Being who created us on purpose. I call this Intelligent Being God.

Part of this belief, this principle, that you're divinely designed, is based in faith, but part of it is also based in science. Science confirms the fact that we are divinely, uniquely

created. Every person on the planet is different. There are no two people alike, and science confirms that. We can look at DNA, with all the different chromosomes and how they come together to form different patterns that create a person. We can look at our **fingerprints**. Everybody's fingerprint is different. No two fingerprints are alike. There are billions of people that are alive right now on the planet, and everybody's fingerprint is uniquely theirs.

That's a lot of different fingerprints!

We are so unique.

We are so special.

If we really understood that we are unique and special, then we would sincerely celebrate who we are. There will never be another Dr. Denise like me. There will never be anyone like you. There will never, ever, be anybody exactly like who you are. If we fully understood our uniqueness, then we would know we are valuable and priceless.

CHAPTER 4

Divine Design

"You are fearfully and wonderfully made."

Psalms 139:14

Understanding divine design is to understand that we were created, designed, and fashioned. I believe intentional thought went into how each person would be created. Thought was given into things like what kind of gifts, talents, and abilities you would have, how you would look, how your voice would sound, the color of your hair, and the color of your skin. All these things were done specifically. It was not happenstance.

I liken it to when a designer is making a beautiful dress. The designer takes time to construct the dress. She takes time to think about what kind of embellishments she'd like to make on the dress, how long the hemline will be, or how long the sleeves are going to be. There's thought that goes into it. The dress is not just thrown together. When you have designers that make exquisite gowns, they become very valuable because a lot of detail has gone into making the creation. I believe that to be true for you as well. A lot of thought and detail has gone into making you who you are. This is why I say, *"You are so valuable, priceless, and amazing."*

You should be celebrating your uniqueness and amazingness. Others should be celebrating you because you are a rare find. One of my favorite things to do is to go to the museum to see rare items. You're not going to find these items anywhere else. The same holds true for you and I. I often tell others, "You could be in a museum in a glass case so everybody can come and ooh and aah over you because you are a rare find!" A lot of times we are made to feel bad about our differences and our uniqueness, but I believe that it should be celebrated, because nobody is as unique as you.

The exercises are designed to help you go deeper into the content covered in each chapter. Use to the exercises to reflect on how you can apply the information to your life.

A Divine Design Exercise

You are a Divine Design.

There is no one exactly like you. You were created unique and special. Let's take time to appreciate the amazing and unique person you are.

Each exercise is designed for you to focus on your unique qualities.

Get a mirror.

1. Describe your eyes (color, shape).
2. Describe your nose.
3. Describe your mouth.
4. Describe your hair (color, length, texture).

Get a voice recorder.

1. Record yourself reading a short passage.

Listen to the recording and describe the quality of your voice (pitch, loudness, softness, deepness, etc.)

Get paper and pencil.

1. Trace your hands. On your drawing, recreate the lines of the palm of your hand.
